Comparing Money Amounts

I can compare the value of groups of items.

					
toy car £22	building bricks £37	scooter £52	football £34	teddy £23	games console £99

1) Add together the cost of the toys and use $<$, $>$ or $=$ to compare them. Show your working out.

a toy car and a football		a box of building bricks and a teddy
a scooter, a box of building bricks and a football		a games console and a football
2 toy cars, a scooter and a teddy		3 teddies and a toy car

OR

2) Choose your own items and compare them using $<$, $>$ or $=$.
